Non Profit Company

"You in Europe"

Located in Greece

Welcomes 4 ESC Volunteers

From Italy, Poland, Spain and Portugal

For the project

"Volunteers Support the society"

Dates: 1.5.2019 - 30.4.2020

Place: Nea Moudania, Halkidiki.

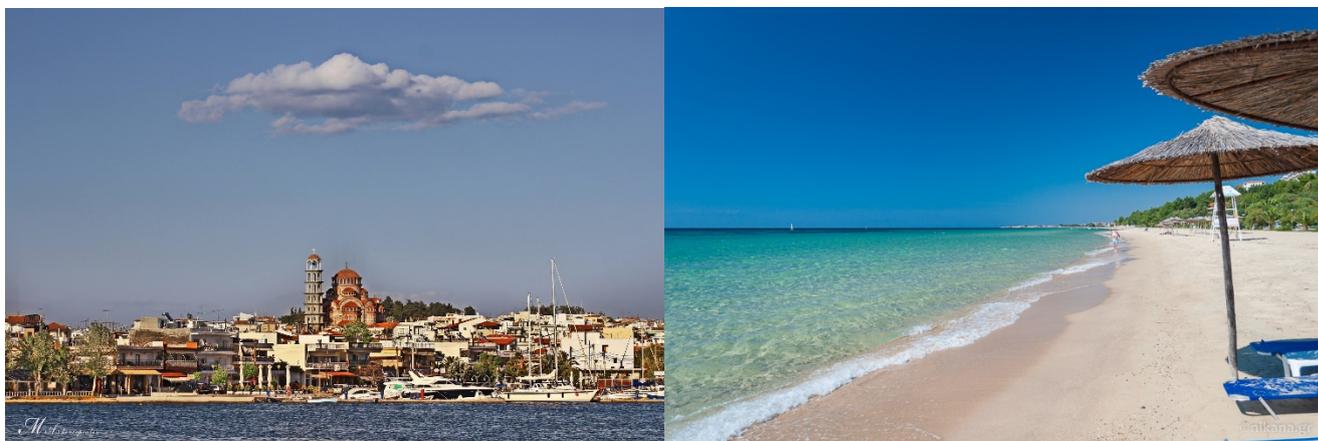

1. The place

The Municipality N.Propontida, on the basis of the Greek Statistical Authority of the 2011 census, numbers about 36.520 inhabitants and the area of Nea Moudania, where the headquarters of the activities, collects half of the municipality population. It is the largest urban center in the region, occupying the top of the first peninsula of Halkidiki, from the boundaries with the Prefecture of Thessaloniki to the middle of the peninsula.

Regarding the age structure, Nea Moudania appears as the most dynamic with a greater percentage participation of very young ages (0-14 years, 18.8%), high turnout of new categories of 15-24 and 25-39 years (14.8% and 25.5% respectively) and relatively low rate of 65 years and older (11.3%).

Nea Moudania is a vivid commercial center, with a lot of shops, public services, bars and restaurants. During the summer, the population doubles, as it is also a famous touristic resort, due to the crystal clear waters and sandy beach.

Thessaloniki, the second biggest city of Greece is only half an hour by car and features an interesting cultural and historical background, as well as vivid nightlife.

2. The hosting organization

The non-profit organization "You in Europe", which was established in 2012, has among other aims the solidarity and understanding between societies, especially in Europe. Therefore promotes volunteerism as a mean of strengthening social cohesion and equal parallel as tool for integration of people from vulnerable social groups. To achieve its objectives, seeks the creation of communication networks between populations in particular European countries. At the same time it aims at fostering the spirit of volunteerism through the implementation of European projects - in the fields of non-formal and informal learning and vocational training in collaboration with other organizations having similar purposes. The overall objectives of the organization are:

Purpose of the company is to contribute to the deepening of understanding, solidarity, communication, cultural, social, athletic and economic rapprochement of the people of Europe, particularly of the European Union.

To create social networks and communication channels between populations from various European states animated by shared values, ideas and interests.

To cultivate bonds with groups of countries that have historical, artistic and spiritual bonds with Greece.

To contribute to the study, preservation, presentation and promotion of cultural peculiarities of the people of Europe.

To contribute to the culture of local art, theater, music and dance traditions of the people of Europe.

To contribute to the study of local dialects, linguistic diversity and literary production of the peoples of Europe.

To promote the concept of volunteering and social solidarity.

To contribute in every possible means to social inclusion, economic and cultural advancement of disadvantaged population groups , such as women , children , immigrants , the poor, the disabled and the disadvantaged groups in general population of European countries .

To ensure the promotion of gender equality.

As the organization has experience in the European Voluntary Service since 2012 when it received the relevant certification as sending organization within the program "Youth in Action", by sending volunteers in Austria, Lithuania and England and worked with another entity for sending volunteer in Portugal. But the officers who compose the NGO have previously dealt with the implementation (sending and hosting) of EVS projects, have general experience of its participation in the implementation of actions of the "Youth in Action" and overall experience in the submission, implementation and monitoring of projects financed by European Structural funds.

Target group is mainly the youngsters and generally social groups experiencing exclusion and marginalization. While youth work is not recognized in Greece, however, we apply techniques and methods as they have developed by various bodies such as knowledge resource centers for youth SALTO etc.

The experience gained by our organization since its establishment until today, and without taking into account the previous experience of its executives is satisfactory. From 2012 until December 2018, we sent abroad 90 volunteers in a variety of programs, short and long term, in groups or individually. An informal network has been created and we stabilized cooperation with institutions from Portugal, Spain, Bulgaria, U.K., Romania, Poland, Italy, Latvia, Lithuania, Denmark and Austria. The process of preparation of the volunteers and the constant communication with them during their program has given the required experience to all members of our organization to handle different situations. Alongside executive who previously participated in a seminar SOHO and has been hosting project leader along with former EVS volunteer who returned and be active in our body give the required expertise for the preparation and hosting program. Simultaneously at international youth work, our institution has been involved in a sufficient number of exchanges and trainings filling eligible activities of key action 1 in the youth field.

All four key members of the organization are graduates of humanities, which is important both for the subject of the application and the overall involvement with youth. They have participated themselves in training activities mentioned in the above field, gaining important insights on actions for youth while the head of the EVS has been in the past (under another entity) responsible sending and hosting volunteers and participated in SOHO seminar . Finally the organisation has launched the creation of a group of volunteers consisting of local residents.
